

Xenotation

5th serie6th series

notational adaptation
to numerical synthesis

No purely syntactic principle
of order

- notation attuned to multiple,
not to order

Tic-Assemblies

\top : #	Prime ⁰ (matrix)
$\overline{\top}$: (#)	Prime ¹
$\overline{\overline{\top}}$: ((#))	Prime ²
$\overline{\overline{\overline{\top}}}$: (((#)))	Prime ³

↑
↑
 intensive hyprime
 cohesion powers

Algebraic, e.g.

$(\overline{\overline{\top}}) = \overline{\overline{\top}} \quad (\overline{\overline{\top}} \top) \overline{\overline{\top}} \quad \text{etc.}$
